City of Town & Country Policy on Pet Waste Stations

As a part of the development and maintenance of both Drace Park and Longview Farm Park, the City of Town & Country, MO has installed the "Dogipot" Poly Pet Station model 1010 for distribution of consumable pet waste bags. As a result, we store and utilize one size and type of pet waste bag for all of our receptacles. The advantages gained in the ability to buy in bulk while still maintaining manageable supply volumes provides for a more cost effective and efficient maintenance operation.

Craig J. Wilde

Director of Public Works
City of Town & Country
April 25, 2011

I do hereby certify that in accordance with the requirements of 23 CFR 635.411(a)(2), this patented or proprietary item is essential for synchronization with existing highway facilities.

Kathryn P. Harvey, State Design Engineer

- The name, title and affiliation of the entity requesting the material certification. **Craig Wilde, Director of Public Works, city of Town & Country**
- The name, manufacturer and a description of the item(s). **From the project specifications:**

2. Pet Waste Station

a. Dogipot

- 1) Item Number: Poly Pet Station Complete Model 1010
- 2) Color: Forest Green
- 3) In Ground Mount: Set in concrete foundation per manufacturer's recommendations.
- 4) Contact Information:
 Address: 2100 Principal Row, Suite 405
 Orlando, Florida 32837
 Phone: 1-800-364-7681
 Email: info@dogipot.com

- The project number, location and letting date anticipated. **STP-5532(609) Clayton Road from Oak Springs Lane to Bopp Road, letting this winter?**
- An estimate of any additional costs which will be incurred as a result of the proprietary item requirement. **Unsure if there would be any additional cost for providing this brand over others, but would save city on supplies for refilling the station due to consistent use within the city.**
